- a sensory impairment
 - a physical disability
 - a medical condition
 - his/her ability to write legibly
 - a learning difficulty which has a substantial and long term adverse effect on his/her ability to write legibly
 - Needs may include
 - ◀ award the use of a word processor to a candidate if it is appropriate to their needs working within the centre (AA 5.8.1)
 - ◀ allocate the use of a word processor to a candidate where it is their normal way of
- The centre will

The use of a word processor

The term 'word processor' is used to describe for example, the use of a computer or a laptop.

This policy details how The Thomas Hardy School complies with AA (chapter 4) Adjustments for candidates with disabilities and learning difficulties and (chapter 5.8) Word processor when awarding and allocating a candidate the use of word processor in his/her exams.

Purpose of the Policy

Candidates may not require the same arrangements in each specification. Subjects and their methods of assessments may vary, leading to different demands of the candidate. SENCOs must consider the need for access arrangements on a subject-by-subject basis.

(AA 4.2.3)

Although access arrangements are intended to allow access to assessments, they cannot be granted where they will compromise the assessment objectives of the specification in question.

(AA 4.2.2)

The purpose of an arrangement is to ensure, where possible, that barriers to assessment are removed for a disabled candidate.

The integrity of the assessment is maintained, whilst at the same time providing access to assessments for a disabled candidate.

At a substantial disadvantage as a consequence of persistent and significant difficulties.

Assessments are removed for a disabled candidate preventing him/her from being placed at a substantial disadvantage as a consequence of persistent and significant difficulties.

(AA 4.2.1)

The use of a word processor in exams and assessments is an available access arrangement.

Introduction

This policy is reviewed and updated annually on the publication of updated JCO and Reasonable Adjustments 2019-2020 and Instructions for Conducting Examinations 2019-2020 publications.

References in this policy to AA and IEE relate to/are directly taken from the Access Arrangements and Reasonsable Adjustments 2019-2020 and Instructions for Conducting Examinations 2019-2020 publications and guidelines on access arrangements and instructions for conducting exams.

Regularions and guidiance on access arrangements and instructions for conducting exams.

- planning and organisational problems when writing by hand
- poor handwriting (AA 5.8.4)
- ▶ only permit the use of a word processor where the integrity of the assessment can be maintained (AA 4.2.1)
- ▶ not grant the use of a word processor where it will compromise the assessment objectives of the specification in question (AA 4.2.2)
- ▶ consider on a subject-by-subject basis if the candidate will need to use a word processor in each specification (AA 4.2.3)
- ▶ consider the needs of the candidate at the start of the candidate's course leading to a qualification based on evidence gathered that firmly establishes the candidate's needs and 'normal way of working' in the classroom, internal tests/exams, mock exams etc. and confirm arrangements in place before the candidate takes an exam or assessment (AA 4.2.4)
- ▶ provide access to word processors to candidates in non-examination assessment components as standard practice unless prohibited by the specification (AA 5.8.2)

The centre will not

- ▶ simply grant the use of a word processor to a candidate because he/she prefers to type rather than write or can work faster on a keyboard, or because he/she uses a laptop at home (AA 5.8.4)

Exceptions

The only exception to the above where the use of a word processor would be considered for a candidate would be

- ▶ in the event of a temporary injury or impairment, or a diagnosis of a disability or manifestation of an impairment relating to an existing disability arising after the start of the course (AA 4.2.4)
- ▶ where a subject within the curriculum is delivered electronically and the centre provides word processors to all candidates (AA 5.8.4)

Arrangements at the time of the assessment for the use of a word processor

A candidate using a word processor will be accommodated in an ICT room with standalone computers.

In compliance with the regulations the centre

- ▶ provides a word processor with the spelling and grammar check facility/predictive text disabled (switched off) except where a student qualifies for a scribe for significant spelling difficulty, then the spelling and grammar check may be enabled. (ICE 14.20)
- ▶ ensures the candidate is reminded to ensure that his/her centre number, candidate number and the unit/component code appear on each page as a header or footer e.g. 12345/8001 – 6391/01 (ICE 14.22)

If a candidate is using the software application Notepad or Wordpad these do not allow for the insertion of a header or footer. In such circumstances once the candidate has completed the examination and printed off his/her typed script,

- ▶ he/she is instructed hardware details as a header or footer. The candidate is supervised throughout this process to ensure that he/she is solely performing this task and not re-reading their answers or amending them in any way.
- ▶ ensures the candidate understands that each page of the typed script must be numbered, e.g. Page 1 of 6 (ICF 14.23)
- ▶ where possible, an IT technician will set up 'auto save' on each laptop/word processor)
- ▶ ensures the candidate is reminded to save his/her work at regular intervals. (or where possible, an IT technician will set up 'auto save' on each laptop/word processor)
- ▶ instructs the candidate to use a minimum of 12pt font and double spacing in order to assist examiners when marking (ICF 14.24)
- ▶ The centre will ensure the word processor (ICF 14.25)
 - ▶ is only used in a way that ensures a candidate's script is produced under secure conditions
 - ▶ is accommodated in such a way that other candidates are not disturbed and cannot read the screen
 - ▶ is used as a typewriter, not as a database, although standard formatting software is used as a typeface, although standard formatting software is
 - ▶ acceptable and is not connected to an internet or any other means of communication
 - ▶ is cleared of any previously stored data
 - ▶ does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
 - ▶ does not include graphic packages or computer aided design software unless permission has been given to use these
 - ▶ does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of automatic spell checking
 - ▶ does not include speech recognition technology unless the candidate has body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is provided by the centre
 - ▶ is cleared of any previously stored data
 - ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over

Printing the script after the exam is over

- ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over
- ▶ is cleared of any previously stored data
- ▶ is provided by the centre
- ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over

Portable storage medium

- ▶ permission to use a scribe
- ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
- ▶ does not include speech recognition technology unless the candidate has body's specification permits the use of automatic spell checking
- ▶ check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
- ▶ does not include speech recognition technology unless the candidate has body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
- ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
- ▶ does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
- ▶ does not include graphic packages or computer aided design software unless prohibited in the examination), spreadsheets etc.
- ▶ does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- ▶ is cleared of any previously stored data
- ▶ is used as a typeface, although standard formatting software is
- ▶ acceptable and is not connected to an internet or any other means of communication
- ▶ is cleared of any previously stored data
- ▶ does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
- ▶ does not include graphic packages or computer aided design software unless prohibited in the examination), spreadsheets etc.
- ▶ does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
- ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
- ▶ is cleared of any previously stored data
- ▶ is provided by the centre
- ▶ is cleared of any previously stored data
- ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over

- ▶ The centre will ensure the word processor (ICF 14.25)
 - ▶ is only used in a way that ensures a candidate's script is produced under secure conditions
 - ▶ is accommodated in such a way that other candidates are not disturbed and cannot read the screen
 - ▶ is used as a typewriter, not as a database, although standard formatting software is used as a typeface, although standard formatting software is
 - ▶ acceptable and is not connected to an internet or any other means of communication
 - ▶ is cleared of any previously stored data
 - ▶ does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
 - ▶ does not include graphic packages or computer aided design software unless prohibited in the examination), spreadsheets etc.
 - ▶ does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is cleared of any previously stored data
 - ▶ is provided by the centre
 - ▶ is cleared of any previously stored data
 - ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over

- ▶ he/she is instructed hardware details as a header or footer. The candidate is supervised throughout this process to ensure that he/she is solely performing this task and not re-reading their answers or amending them in any way.
- ▶ ensures the candidate understands that each page of the typed script must be numbered, e.g. Page 1 of 6 (ICF 14.23)
- ▶ where possible, an IT technician will set up 'auto save' on each laptop/word processor)
- ▶ ensures the candidate is reminded to save his/her work at regular intervals. (or where possible, an IT technician will set up 'auto save' on each laptop/word processor)
- ▶ instructs the candidate to use a minimum of 12pt font and double spacing in order to assist examiners when marking (ICF 14.24)
- ▶ The centre will ensure the word processor (ICF 14.25)
 - ▶ is only used in a way that ensures a candidate's script is produced under secure conditions
 - ▶ is accommodated in such a way that other candidates are not disturbed and cannot read the screen
 - ▶ is used as a typewriter, not as a database, although standard formatting software is used as a typeface, although standard formatting software is
 - ▶ acceptable and is not connected to an internet or any other means of communication
 - ▶ is cleared of any previously stored data
 - ▶ does not give the candidate access to other applications such as a calculator (where prohibited in the examination), spreadsheets etc.
 - ▶ does not include graphic packages or computer aided design software unless prohibited in the examination), spreadsheets etc.
 - ▶ does not have any predictive text software or an automatic spelling and grammar check enabled unless the candidate has been permitted a scribe or is using speech recognition technology (a scribe cover sheet must be completed), or the awarding body's specification permits the use of a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is not used on the candidate's behalf by a third party unless the candidate has permission to use a scribe or relevant software
 - ▶ is cleared of any previously stored data
 - ▶ is provided by the centre
 - ▶ is cleared of any previously stored data
 - ▶ The centre will ensure that any portable storage medium (e.g. a memory stick) used is cleared after the exam is over

the answers

- ▶ a word processed script is attached to any answer booklet which contains some of each page by hand.

- ▶ the candidate is present to verify that the work printed is his or her own by signing off, or have the facility to print from a portable storage medium

- ▶ the word processor is either connected to a printer so that a script can be printed to the centre will ensure

- ▶ a word processor cover sheet (Form 4) is completed and included with the candidate's typed script (according to the relevant awarding body's instructions)

Statement date: October 2019
